	APPROVAL OF STATE	ENGINEER		
	This is to certify that I have examined the foregoing application, a	nd do hereby grant the same, subject to the		
follo	owing limitations and conditions:	and the Herody State the same, project to the		
terms and conditions imposed in said Permit 48064 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.  This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.  No perforations shall be put in the production casing from ground level to 100 feet.  The total combined duty of water under Permits 47750,47751,47752,47753,47758,47759,48064,48681 and 48682cshäll.not exceed 1,051 million gallons annually.  The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not				
to ex	xceedcubic feet per	second - but not to exceed 525.5.		
	lion gallons annually.			
	k must be prosecuted with reasonable diligence and be completed or

## (PERMIT TERMS CONTINUED)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.
